The only reason I have downloaded this criminal WhatsApp program was to hope to get my stolen phone number back because this shady criminal joke of an app has illegally stolen my phone number and has allowed criminals to freely make my private phone number available to unauthorized cyber criminals users "aka" hacking cyber terrorists. I plan to sue the piss out of your criminal platform existence as I've been made a digital human slave and have been terrorized since 08/10/2024 because of your criminal theft of my owned private phone number. And several family member(s) have had their identity stolen as another consequence on your non secure app and a criminal result of the WhatsApp theft of my private phone number, which so grossly to advise your criminal business and Non Secure app is that 1 family member is dead for the last 3 years now, but the WhatsApp has enabled criminals to use his legacy Gmail and Apple ID because they are tied to my stolen private phone number that is registered to several family devices and also it is linked to LinkedIn and linked to Facebook and criminals have even created a counterfeit meta business suite (that I reported to meta but yet no answer or follow up? And since this counterfeit criminal app account proceeded to then turn it change it make my almost 20 years Facebook account discretely I into a child profile account even though I'm a 46 years old and clearly an American adult, and then using the WhatsApp stolen phone number and credentials and several family member identity's, all placed all of my connected electronic family devices such as iPhone Alexa gadgets TVs and desktop computer....all now in control of cyber terrorists who are leveraging my WhatsApp stolen phone number and have placed all my devices on "FORCED DOWNTIME" lockdown mode allowing cyber terrorist criminals to control and manage all of my devices, and all of my American adult human civil rights and adult human privacy rights since 08/10/2024 and is still counting 6 months later! Now that I have figured it all out and who these cyber terrorists are that capitalized on Meta's phone number stealing terrorist friendly WhatsApp that allows cyber criminals to steal any phone number no matter who owns it or who it will then impact on innocent american family's you bastards!!! I am going to sue you out of your criminal existence. But first things first, I'm still having issues with registering my stolen phone number as the criminal cyber terrorists you've allowed to steal my phone number won't let me receive the 2 factor authentication code. So before I sue you the piss out of you and your god damn criminal existence....GIVE ME MY GOD DAMN STOLEN FUCKING PHONE NUMBER BACK YOU FUCKING CRIMINAL TERRORIST META PLATFORM! Please refer to MInnesota Dakota County SSP Police Report #24091950 Minnesota Appeals Case #A24-1084 MN Ramsey County Civil Case #62-CV-23-2227 because Meta and their criminal friendly WhatsApp is next on my list of Complaints to file egregious federal terrostic Charges both as Criminal charges and also Human Civil Rights charges in US Federal Court you Sympathetic Terrorist Bastards!
